

Staff Meeting: March 10, 2008

Location: Kennewick Office

Attendees: Don Warf, Alan Brower, Darren Chase, Troy Humphrey & Jenn Nighbor

Absent: None

Recorded by: Jenn Nighbor

Agenda Items:

- **Sites**

Jack Creek - Running and all files there.

Bonneville

BO2 – UPS message said replace battery. UPS died.

BO3 B2J – Need UPSs replaced. UPSs in PIT Tag room.

BO1 & BCC – UPSs have already been replaced.

Granite Juvenile & Adult

Granite Trap went into operation on Friday.

Need to put water up and water down info in event logs.

Granite Juvenile – Waiting on parts should be in this week for gate rebuild. Plan to water up March 25.

Troy to go when parts are in.

Will need two people up there when they start. 2-way and 3-way gates will work faster.

Acc. Ponds

Easton and Clark have fish. Will pull boards on March 15.

Jack to receive fish today.

Timesheets – we do not deduct \$ 3 while you are on the road, per Matt.

Timer Tag Report – Alan has an example. Asked that Roza be added to two reports not currently included in. Handout attached.

- Like the zero placeholder if site does not load.
- Possible constraint less than 2
- Fresh set of data every time button is clicked.

Alan to send off to Carter & Ryan

BCC graph – no data, not reflective in graph

Keep a close eye on spurious tags.

Alan to call Carter after meeting and walk through report.

Transceiver Batteries – replace when doing GMCs.
Darren – would be nice if we can do juveniles before water-up.

Acc. Ponds – PC1 had error box – system is seriously low on resources.
* Someone had been on You Tube.

Darren to call Charlie and ask to put out email

Jack - * Health Concern* urine and feces from mice all over keyboards. Options are to bring stuff back at the end of the season, or maybe locking in the locker.

Starband Licenses – maybe everyone here should get a license. Darren is the only one with a license. Time investment per person? 3-4 day training with online test (1 ½ hr)

Jenn to complete a tri-fold of what we do.

Need one more bird dog – approximately \$ 800

Test Sticks

Alan – we need a bunch of SSTs for Full Flow. Leave sticks at site vs. everyone packing their own.

Lime Green in color – 500, 1,000, 600 test sticks to be made.

Transceivers

Troy – Can we have a Juvenile, Adult and A&B transceiver in the locker at Bonneville?

Vehicles

Don – Does anyone need a canopy or additional toolbox?

Sullivan Dam – will shoot for 10:30-11:00

Anthony from Biomark will be there. We will take pictures. Need to be satisfied or we will not be taking this site over. Will need satellite.

Sandpoint – Two or Three people to go overnight to Sandpoint as Sandy D. will get nodes from DA.

Big Brother- phone line cut and modem light still green. Scott found out we are pinging wrong device. Scott can edit webpage.

Darren to talk to Todd

Storage- Break-in attempt on one of our storage units. May be getting video surveillance. Don is working with Larry.

BCC – Two transceivers put in and coarsely tuned. 02 & 03 have 31” of read range from toe kick. Believe it is a component difference.

Pose question to Alex as to why the difference.

Put another mark on the deck.

Standardizing UPSs for Transceivers

720 at Prosser and 650 at Roza

The 720s do not have any mounting holes.

Don to place order today.

Business Cards – need a card from everyone with updated information. Drop off on Don’s desk.

Schedule Change- Guys to go back to five 8-hour shifts on March 31, 2008.

Meeting adjourned at 11:00 AM.
