

Safety Meeting: September 20, 2007 11:30 AM – 12:00 PM

Location: Kennewick Office

**Attendees:** Don Warf, Alan Brower, Darren Chase, Troy Humphrey, Scott Livingston & Jenn Nighbor

**Recorded by:** Jenn Nighbor

---

**Agenda Items:**

- **Safety Concerns**

Roza – Vertical ladder poses a fall risk. The mounting brackets are placed in such a way that when climbing your hands are not able to wrap around the ladder. Due to the specifications of this ladder, it is not required to have a cage, therefore, please be aware, and ensure that when you are climbing your hands are fully wrapped around ladder.

- **Vehicle Safety**

Troy's truck has a crack in the windshield that has moved into the field of view. Will get it fixed.

Alan's truck had a check engine light come on. Will look into that.

- **New Items**

Troy – would like to get a shallow tote for life vest and harness that would fit under toolbox in truck.

- **Safety Film Viewed**

Defensive Driving for Government Employees

Meeting adjourned at 12:00 PM.
